D Fashion is a renowned textile supplier in Bangladesh, a country with a great potential in the field of garment manufacturing. D Fashion has acquired a versatile production chain to create flexible orders in shorter lead time. Being an industry standard competency holder the company assures the perfect blend of quality and efficiency. D Fashion has a team of experienced and young blood who are craving for excellent work. The team is highly supervised by the high level management.

## OUR CAPACITY

D Fashion has always been pushing the limits of its capacity, and now can handle volume order with ease. As a supplier, D Fashion advanced from knitting, dyeing and finishing to garment manufacturing at a massive scale. D Fashion has been increasing its manufacturing capacity over the years, to convey volume orders of clients. It successfully delivered 3.5 million products in 2020 and every year continuously increased for last 3 years. The company has a goal and also has its capacity to ship out 10 million products by the year 2023.

As the company has a goal of shipping 10 million products by the year 2023 so the company is increasing its manpower which can create new jobs for hard working people during this pandemic situation. By increasing this capacity, we would also like to play a major part in national economy. We have our own plan to start our branches in mainland China and Europe by the year 2023.

# OUR PRODCUTS

# OUR PRODUCTS

# CERTIFICATION OF THE FACTORIES

D Fashion has preferred its quality control system which includes scrupulous check to ensure flawless production. The experienced Quality Assurance (QA) team tracks its operation. Even into the procurement of raw materials and machinery. So in a short cut it can be said the team tries with all its capability to ensure the quality of goods. Even the team helps to do the third party inspection to make sure the customers get their desire product.

D Fashion started its journey as a RMG supplier under the leadership of its experienced entrepreneurs as a RMG supplier under the leadership of its experienced entrepreneurs, aiming to become the trendsetter. The company is also aware of the fact that short lead time plays a vital role in the modern apparel industry. The company is working with some manufacturing factories which are already established and playing an important role in national economy. Factories are mostly located around the mega city Dhaka.

D Fashion is also concentrating to import market based necessary products which generate the speed of the local productions in various sectors including social and industrial.
